## **DETAILED ACTION**

### ***Response to Arguments***

1. In response to communications filed on 6/14/2010, Board of Patent Appeals and Interferences (BPAI) affirms in part the pending claims 1-20. Claims 1-12 and 18-20 are reversed and claims 13-17 are affirmed by BPAI. Therefore, claims 13-17 are cancelled, and claims 1-12 and 18-20 are pending.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Yeh Chang on September 7, 2010.

The application has been amended as follows:

Claims 8-12 and 19-20 are canceled.

***Specification***

3. The abstract of the disclosure is objected to because it is too long. Correction is required. See MPEP § 608.01(b).
4. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

***Allowable Subject Matter***

5. Claims 1-7 and 18 are allowed.
